JIS G3101 SS490 Angle steel

SS490 is a material in the JIS G3106 standard. SS490 Angle steel is commonly used in the engineering and construction industry.

JIS G3101 SS490 Angle Steel Chemical Composition:

| Grade | C % | Mn % | P % | S % |
|-------|---------|---------|--------|--------|
| SS490 | 0.30max | 1.60max | ≤0.040 | ≤0.040 |

JIS G3101 SS490 Angle Steel Mechanical Property :

| Grade | Thickness mm | Yield Strength (Mpa) min | Tensile Strength (Mpa) | Elongation (%) min |
|-------|--------------|--------------------------|------------------------|--------------------|
| SS490 | t≤16 | 285 | 490-610 | T>5, ≤16mm 15% |
| | 16<t≤40 | 275 | | |
| | 40<t≤100 | 255 | | |
| | t>100 | 245 | | |

JIS G3101 SS490 Angle Steel Details:

specifications: 50x50--200x200(mm);100x75--200x150(mm)

Payment : T/T, L/C or others

Trade Terms : FOB / CFR /CIF or others

Main Export Country: Indonesia, Malaysia, Thailand, Burma, Singapore, Vietnam and so on.

As the professional Chinese JIS G3106 SS490 Angle steel supplier, we will supply our customers the best quality with the competitive price ,the best service and rapid delivery time. If you purchase the JIS G3101 SS490 Angle steel, we will support you to pay a visit to our company and do inspection. Welcome to contact us .We are sincerely looking for your cooperation.
