ASTM A135 GR.A ERW Pipe

ASTM A53 GR.A ERW Pipe chemical composition: (max)

Grade	C %	Mn %	P %	S %
ASTM A135 GR.A	0.25	0.95	0.035	0.035

ASTM A53 GR.A ERW Pipe mechanical property:

Grade	Yield Strength min,psi, (Mpa)	Tensile Strength min, psi ,(Mpa)	Elongation (%) min
ASTM A135 GR.A	48 (331)	30(207)	35

ASTM A135 GR.A ERW Pipe Manufacturing process as follows:

ASTM A135 GR.A ERW Pipe is produced in individual length or in continuous length from coiled skelp and subsequently cut into individual, but joint where in coalescence is produced by the heat obtained from resistance of the pipe to the flow of the electric current in a circuit of which the pipe is a part, and by the application of pressure.

Equipped with advanced world class processing and storage facilities, Katalor Enterprises has reached annual sales quantity over 60,000 metric tons of steel and turn over 50 million USD. ASTM A135 GR.A ERW Pipe we offered is according to your needs with providing high precision, strictly inspection and excellent performance. We sincerely hope to be your reliable supplier of ASTM A135 GR.A ERW Pipe. Because of this, our company has gained a good reputation about ASTM A135 GR.A ERW Pipe in the international market.
